cytoplasmic translation
antigen processing and presentation...
antigen processing and presentation...
antigen processing and presentation...
ribosomal large subunit biogenesis
antigen processing and presentation...
antigen processing and presentation...
antigen processing and presentation
ribonucleoprotein complex biogenesis
ribosome assembly
cytosolic ribosome
ribosomal subunit
ribosome
cytosolic large ribosomal subunit
large ribosomal subunit
cell−substrate junction
focal adhesion
cytosolic small ribosomal subunit
polysomal ribosome
small ribosomal subunit
structural constituent of ribosome
cadherin binding
MHC class II protein...
rRNA binding
MHC protein complex binding
peptide antigen binding
translation regulator activity
translation factor activity, RNA...
translation initiation factor activity
translation regulator activity, nucleic...
