
The Most Enriched GO Terms
type
BP
CC
MF
intracellular sequestering of iron...
sequestering of iron ion
negative regulation of response...
negative regulation of hydrogen...
vacuolar acidification
negative regulation of response...
sphingolipid catabolic process
sequestering of metal ion
regulation of hydrogen peroxide−induced...
membrane lipid catabolic process
late endosome
autolysosome
secondary lysosome
endocytic vesicle
vacuolar membrane
multivesicular body
late endosome membrane
autophagosome
collagen−containing extracellular matrix
peroxisome
ferric iron binding
ferrous iron binding
sulfur compound binding
iron ion binding
proteoglycan binding
oxidoreductase activity, acting on...
phosphoric diester hydrolase activity
phosphoric ester hydrolase activity
scaffold protein binding
monocarboxylic acid binding
